Community Involvement:

- Board Member and prior Chairman and Treasurer, Capital for Children
- Board Member and Treasurer, National Capital Poison Center.
- Former Board Member and Treasurer, Higher Achievement.

David Farrell has over twenty years of experience in Transaction Advisory Services (buy-side and sell-side due diligence and carve-outs) and Restructuring & Business Reengineering either as a consultant (Partner and Managing Director) at Big 4 (KPMG), international consulting practices (FTI Consulting, Farrell Advisory) and national accounting firms (Cherry Bekaert, a Baker Tilly network firm) or as principal (CFO or Strategic roles) at listed and Management Buy-Out ("MBO") businesses, covering both the strategic as well as the transactional side of the business, with deep knowledge of the U.S., European and emerging markets. Among David's achievements are:

- Led over 170 transactions with revenue exceeding \$70 billion across multiple sectors and countries with companies ranging from small to very large, from family to private equity owned to publicly listed, from local to multinational corporations. Significant experience in government contracting and defense, technology and telecommunications, manufacturing (industrials), distribution, asset rental, health and energy, franchise and business service sectors.
- Performed over 44 significant (e.g., buy-side due diligence, litigation support (working capital and earn-outs), preparation for sale, business diagnostics and performance improvement) in the government contracting sector including multi-million dollar performance improvement engagement to multi-billion global government services provider in support of U.S. national security and foreign policy objectives. Clients included BAE Systems (United Defense), DynCorp/Cerberus, Arlington Capital, LBC (Vistrionix), The Gores Group, The Halifax Group, Bank of America, SunTrust and Regions.
- Led 28 creditor and debtor side restructuring and business diagnostic engagements (revenues in excess of \$17B) assisting SunTrust (LandAmerica), Bank of America, Lewis & Bockius, counterparties of Vitro, S.A.B. de C.V., Landis Rath & Cobb, and Kodak with their strategic options.
- Served in multiple CFO and strategic roles at corporate head offices with a focus on M&A (20 transactions), performance improvement, merger integration, carve outs and disposal of non-core businesses and alignment of management's remuneration with shareholders' objectives.
- Included within his significant experience in over 59 IT M&A transactions, David managed the disposal of a European listed company, with over \$500 million of revenue in technology and financial services businesses, the repurchase (and subsequent sale of several businesses) of the technology group of businesses via a Management Buy-Out vehicle and a reverse take-over of a AIM listed technical training business.
- Prepared and advised several companies for sale or investment where I proactively assessed all parts of the businesses and helped business or private equity owners prepare (plan and assist management with implementation) their business for growth and/or sale and maximize their potential sales valuation (and more importantly maximize net proceeds after tax) given the owners very individualized timescale and operational and investment objectives. These exercises included liaising with multiple advisors (e.g., investment bankers, attorneys, tax and wealth advisors), preparing data rooms and management, negotiating and liaising with third party investors.
- Led and performed three major sell-side and carve out consulting engagements for Sara Lee, BP and Delphi.

David has dual U.S. and U.K. nationality and is a qualified Chartered Accountant and in Corporate Finance.

Merger Integration and Growth Initiatives

Farrell Advisory ensures the right activities take place at the right times.

Farrell Advisory provides a **disciplined** and **fast-paced** approach to the **integration and growth initiatives** to improve shareholder returns by making use of **disciplined and prioritized** planning; delivering a **well-coordinated** launch; and keeping a relentless **focus** on the key **value drivers** behind the deal.

Mergers & Acquisitions Services

Merger Integration and Growth Initiatives

Farrell Advisory provides a **disciplined** and **fast-paced project management** approach to the **integration process** to improve shareholder returns by making use of **disciplined and prioritized** planning; delivering a **well-coordinated** launch; and keeping a relentless **focus on results** and the key **value drivers** behind the deal.

Alignment of Strategies, Structure and Integration Plans. Design of Organization (structure of multiple business units, management structure and equity/debt structure and revised budget), Operating (integration teams, allocation of responsibilities, new leadership team and incentive/retention plans) and Reporting models with effective corporate governance and tax strategy.

To quickly boost profitability, streamline operations and maximize returns, evaluate all aspects of a business to determine the appropriateness of cost allotted to each area and the ROI of each expense decision for the company. We recommend a 'zero' based budgeting approach to costs, customers/ products, locations and procedures/ tasks.

Deep insights in the operational and financial reporting and forecasting process is fundamental to a successful integration and ongoing business. Accurate and cleaned up data, active and near real-time communication of key performance indicators via dashboards is necessary to make informed course-corrections to strengthen and enhance strategies and actions.

Cash management should become a core competency and managed by a specialist; this goes beyond the 13-week cash flow forecasting. Orderly ordering, spend and standardization of accounts payable; careful management of inventory; and improving accounts receivable for cash collection opportunities culture should be careful monitored by KPI's and incentivized by realignment of management incentives (e.g., salesmen for cash collections rather than on orders).

Integration should encompass an honest and intense appraisal of the best operating processes (e.g., Operations/Production, Business development, marketing, purchasing, HR (including employee welfare, remuneration, benefits, assessment and training), finance, IT, e-mail, intranets and accompany policies and producers) and value delivery culture. Improvements have to be institutionalized quickly, sometimes via executive coaching, while still maintaining uniqueness qualities.

Managing and regular communication with energy of "right first time" changes in vision, culture, structure and goals and then performance against goals are fundamental to success and trust which bonds employees to organizations. Changes and perceived uncertainties will be quickly judged and rebelled against via irrational actions if deemed poor leading to loss of employees and customers. Stakeholders expect change post acquisition and it is always best practice to make change quickly, efficiently and in a transparent manner while seeking constant feedback.

Mergers & Acquisitions Services

Divestitures: Maximizing Valuation and Minimizing Risk & Time

Farrell Advisory Supports and Leads Preparation and Execution of Divestitures and New Capital Raising Initiatives.

Farrell Advisory provides fully vetted and compelling financial and operational **data to support the sale of an improved business or for raising new capital.** This approach **leads to higher price and certainty** (i.e., time to completion and terms) of **M&A success with increased competition from knowledgeable bidders.** In addition, the better the seller can improve on the buyers financing opportunities and the company's story, the smoother the sale should be.

Mergers & Acquisitions Services

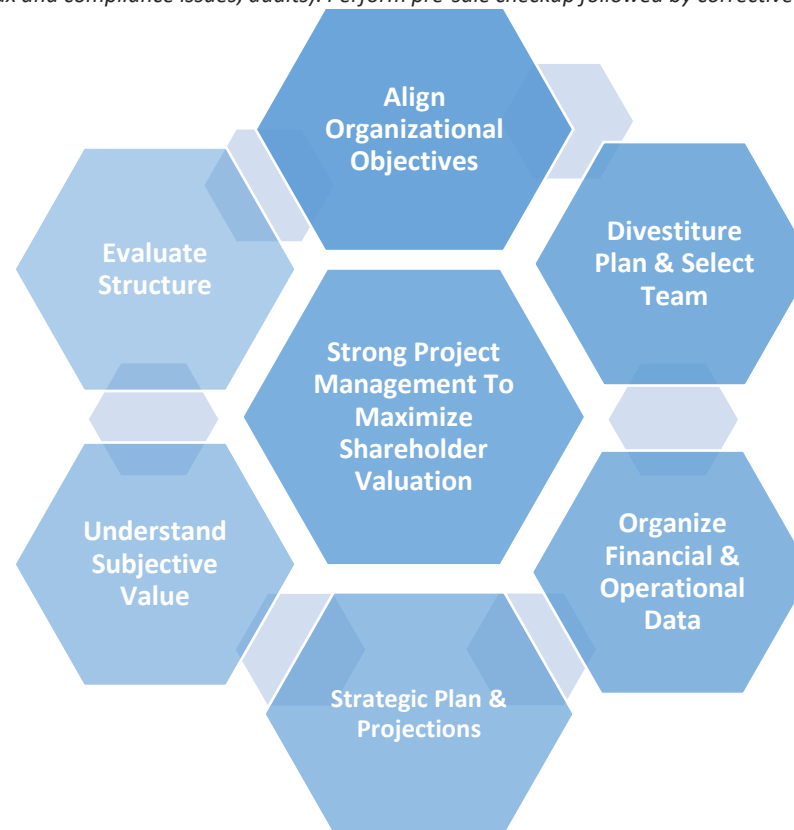

Divestitures: Preparing a Business for Sale or Third-Party Investment – Pre-Sale Diagnostics

Farrell Advisory provides a **disciplined** and **fast-paced project management** approach to assessing and preparing a company for sale and keeping a relentless **focus** on **results** and the key **value drivers via a dynamic valuation model** behind a potential transaction while still allowing management to run their business. **A successful sale depends on maintaining Credibility and Control:**

Get the house in order in terms of organization structure, growth strategy, new business development, operational performance, executive and staff development, solution/product development, contractual documentation, protecting IP, and back office (e.g., HR, IT, reporting, accounting and procedures manual, tax and compliance issues, audits). Perform pre-sale checkup followed by corrective actions. Keep the business running.

Evaluate valuation, structuring alternatives and related trade-offs.
Understand potential deal breakers and price adjustment issues.
Implement staff retention and long-term incentive plans.
Protect business value via performance improvement initiatives, succession planning, insurances coverage and company and personal tax and financial planning.
Identify likely buyers.

Understand non-financial aspects (e.g., the business, management team and talent, compensation package, severances, long-term contract, change of ownership clauses, synergies, product/service offering, market and Platform vs. Add-on acquisition) from a buyer's perspective.
Build strong concise knowledgeable messages around quality of earnings and buyer's skepticism and findings.

Identify owner objectives.
Develop divestiture, contingency and communication plans.
Address strategic and tactical priorities, resources and timing.
Assemble, motivate and brief selective members of the management team.
Assemble a team of trusted advisors and deal specialists.
Appoint senior project manager.
Ensure internal managers and external advisors communicate the same message.

Self-review enables seller to maintain credibility and control and better anticipate buyers needs.
Perform quality of earnings and working capital analysis.
Highlight key performance indicators and management tools and demonstrate their relevance.
Collate scrutinized data in a well-thought out and structured centralized database; with some data being released in phases.
Unpleasant surprises derails transactions and deflates value.

Develop sound financial projections.

Articulate market assessment, opportunities and value drivers to support future growth and profitability.
